## Full Stack Developer, Frontend Developer, Backend Developer

I'm a Web Developer with a focus on creating innovative and user-friendly digital solutions. Skilled in HTML, CSS, JavaScript, PHP, MySQL, and frameworks like React JS and Next JS, I deliver visually appealing and robust websites. My strengths include full-stack development, creative problem solving, and a user-centric approach, ensuring that projects align with business goals. Let's connect to explore collaborative opportunities!

## WORK EXPERIENCE

### Full-Stack Web Application Developer and Designer

**JOBBOOST**

**08/2024 - Present**

- I am responsible for both front-end and back-end development, including designing user interfaces, managing databases, and architecting web applications.

### Junior Human Resources Recruiter

**JOBBOOST**

**07/2024 - 08/2024**

- As a Junior Human Resources Recruiter at JobBoost, my role involved bringing new job seekers into WhatsApp groups, enabling companies to easily select suitable candidates based on their requirements.

### Junior Frontend Web Developer and UI/UX Specialist

**StrongByYoga**

**08/2023 - 09/2023**

- Strong By Yoga is a premier yoga teaching company. Contributed to the maintenance and redevelopment team by utilizing WordPress and applying UI/UX principles to enhance the website's functionality and user experience.

### Freelance Web Developer and UI/UX Specialist

**Catererss.com**

**05/2023 - 06/2023**
